

FOR IMMEDIATE RELEASE

KeTTHA AND MMC ENTERS INTO AGREEMENT FOR LANGAT SEWERAGE PROJECT

PUTRAJAYA, 19 February 2016 – The Ministry of Energy, Green Technology and Water (KeTTHA) recently signed a contract agreement valued at RM1.5 billion with MMC Pembetulan Langat Sdn Bhd (MMC PLSB) a wholly-owned subsidiary of MMC Corporation Berhad to carry out the Langat Centralised Sewage Treatment Plant (CSTP) and Sewerage Conveyance System project.

KeTTHA was represented by the Secretary General, Y.Bhg Datuk Loo Took Gee and the Group Managing Director of MMC Corporation Berhad, Y.Bhg Dato' Sri Che Khalib Mohamad Noh represented MMC PLSB for the signing of the contract agreement. The event was witnessed by the senior management representatives from both parties.

Y.Bhg Dato' Sri Che Khalib Mohamad Noh shared that, "MMC is honoured to be entrusted by The Ministry of Energy, Green Technology and Water to undertake the responsibility to build a world-class sewage treatment centre that is similar to the facility in Japan. As a premier utilities and infrastructure group with businesses in Ports & Logistics, Energy & Utilities and Engineering & Construction, we are equipped with the resources and experience to showcase our capabilities in the engineering and construction sector."

MMC PLSB was given the responsibility to build a sewage treatment plant based on the experience and success of Tokyo Metropolitan Sewerage Services Corporation in Japan. The innovative and modern facility will be equipped with green technology initiatives and public facilities and it can accommodate sewage inflow of

207,000 m³/day or 920,000 population equivalent (PE), covering a total of 60.9 sq km catchment area starting from Cheras Batu 11 to Kajang.

The project will rationalise 164 local sewage treatment plants in Cheras Batu 11, Desa Baiduri, Cheras Jaya, Kajang 1 & Kajang 3. It involves the construction of new Sewerage Conveyance System covering the catchment areas, building six new pumping stations and upgrade four existing pumping stations.

The project is scheduled to be completed in October 2020 and is expected to improve the quality of effluent while reducing one of the point sources for the ammonia pollution into the Langat River.

About MMC Corporation Berhad

MMC Corporation Berhad (MMC) is a leading utilities and infrastructure group with diversified businesses in ports & logistics, energy & utilities and engineering & construction.

MMC's key businesses in its ports and logistics division include the operations of Port of Tanjung Pelepas (Malaysia's largest container terminal) and Johor Port. MMC also has a substantial shareholding in NCB Holdings Berhad which operates Northport in Port Klang and owns Kontena Nasional. Through its associate stake in Red Sea Gateway Terminal Company Limited, MMC extends its operation in container port terminal in Jeddah Islamic Port in Saudi Arabia. In the aviation industry, MMC owns and operates Senai International Airport, Johor Bahru, a major aviation hub and the main air transportation gateway to Iskandar Malaysia. Surrounding the airport is an area covering over 2,718 acres known as Senai Airport City which is being transformed into a major integrated industrial and commercial development.

Under the energy & utilities division, MMC has a controlling stake in Malakoff Corporation Berhad (Malaysia's largest independent power producer), is the single largest shareholder of Gas Malaysia Berhad (sole supplier of reticulated natural gas in Peninsular Malaysia to non-power sector), and wholly owns Aliran Ihsan Resources Berhad (a water treatment plant operator).

MMC's engineering & construction division has further established itself in the sector following its leading role as the Project Delivery Partner (PDP) and underground works package contractor for the 51km Klang Valley Mass Rapid Transit (KVMRT) project (Sungai Buloh-Kajang Line). MMC has again been appointed as the PDP for the KVMRT Line 2 project (Sungai Buloh-Serdang-Putrajaya Line). MMC has also successfully completed the 329km Ipoh-Padang Besar Electrified Double Tracking Project as well as the innovative Stormwater Management and Road Tunnel (SMART) motorway, the first-of-its-kind dual-purpose tunnel in the world. MMC continues to make inroads in the construction industry, securing key civil and infrastructure projects in the country namely Langat Centralised Sewage Treatment Plant, Langat 2 Water Treatment Plant and civil and infrastructure works for RAPID Pengerang Co-generation Plant.
